

Review articles:

Papers should bring up the most important current topics or present interpretative and critical accounts, but not simple compilation, on subjects of general interest. Review Papers should not exceed 18 pages (in word format file).

Short communications:

Papers are the one that should present new important findings in a brief form, a maximum of pages should not exceed 10 including illustrations (in word format file).

Case Studies:

Papers are the one that should present new important findings in a brief form, a maximum of pages should not exceed 15 including illustrations (in word format file).

Preparation of Manuscript

The manuscript should be prepared in English using “MS Word” with 1cm margin on all sides (Top, Bottom, Left and Right side) of the page. “Times New Roman” font should be used. The font size should be of 12pt but main headings should be of 14pt with bold face capitals and subheadings should be of 12pt with bold face capitals. All plant and microorganism's scientific names should be written in *italic*. All research article should be typed 1 spaced and should have the following sections: Title page, Abstract, Key words, Introduction, Materials and methods, Results, Discussion, Conclusion, Acknowledgement and References.

Title page:

The title should appear on a separate page which should then followed by the author name and the institution name and address by indicating suitable superscripts. Title page should contain title of the paper in font size 14 with bold face capitals, names of the authors in normal face upper case with font size 12 followed by the address in normal face lower case. An asterisk (*) must be placed after the corresponding authors name as superscript whose email id, fax, telephone number can be given at the bottom left corner of the title. Corresponding author has the responsibility to ensure that all co-authors are aware and approve the contents of the submitted manuscript.

Abstract:

This section should start on a new page and should detail the aim of the study, experimental approach, results and conclusion in one paragraph, not more than 200 words. Avoid

abbreviation, diagram and references in the abstract. All the three categories, Review Articles, Research papers and Short Communications should have an Abstract.

Keywords:

Author(s) must give about 3-6 key words which can identify the most important subjects covered by the paper. They must be placed at the end of the abstract.

Introduction:

The Introduction should start on a new page and should clearly indicate the aim of the study, the relevant literature on the subject.

Materials and Methods:

The Materials and Methods Should start as a continuation to introduction on the same page. All important materials used along with their source shall be mentioned. The main methods used shall be briefly described, with references.

Results and Discussions:

This section should start on a new page and the results presented in tabular or graphical form shall be described in this section. All Tables and Figures must have a title with bold and should be given only numbers (E.g. Table No.1, 2, 3..., Figure No.1, 2, 3...). The Colour photographs must be clean originals. The results should be explained clearly in discussions.

Conclusion:

The conclusion should have relevant brief conclusion (limit of 200 words) and should reflect the importance and future scope.

Acknowledgements:

All acknowledgments should be typed in one paragraph directly preceding the reference section.

Conflict of Interest

References:

References to the literature cited for the manuscript should be numbered in order of appearance in the manuscript and cited in the text with superscript numbers. The reference

number should follow the following format. Please see “**Model manuscript**” of this Journal webpage to get an idea.
